

# LEAGUE GAME INSTRUCTIONS

---

## Register

In order to start playing, you'll first have to register. Press the **register now** button, which is located in the left side.

Follow the instructions, type the required information and save your username and password. A mail will be sent to you, informing you that you have successfully registered in the site.

## Playing

Type your user name and password in the fields in the left and press the Enter button. Then, press the LEAGUE GAME button and a MENU will open in the left, showing all the game buttons.

**MY GROUPS:** Here, you can see all your groups and choose in which group you want to play. Also, you will get information about your active and non-active groups.

**CREATE A GROUP:** Here, you can create a group and choose your favourite league. An important fact is, that you can take part in all leagues, by creating as many groups you like.

**FIND & JOIN GROUPS:** In this MENU, you can find a friend's created group, requiring that you know the group's name. By typing in the field in the left side the name of the group and pressing the FIND button, you will find the group you were looking for. By pressing the JOIN button that appears, you become a member of this group. You are ready to start playing.

## Points

The points of the game, are distributed as written below:

We always input the exact score, that we think will be game's final result.

**If we predict the home team's win, without predicting the exact result of the match, we get 2 points.**

**If we predict both the home team's win and the exact result of the match, we get 5 points.**

**If we predict a draw, without predicting the exact result of the match, we get 2 points.**

**If we predict both a draw and the exact result of the match, we get 5 points.**

**If we predict the away team's win, without predicting the exact result of the match, we get 3 points.**

**If we predict both the away team's win and the exact result of the match, we get 6 points.**

## Points table

	Right result	Exact result	Sum
Home win	2	3	5
Draw	2	3	5
Away Win	3	3	6
